NOTICE OF STUDY COMMENCEMENT

Sifton Properties Limited, Revel Shores Wastewater Servicing Municipal Class Environmental Assessment Study

Sifton Properties Limited (Sifton) is undertaking a Municipal Class Environmental Assessment (EA) study for the proposed future residential development in the Municipality of Lambton Shores, known as Revel Shores. The Study Area is approximately 81 hectares in size and shown on the key plan. The purpose of the EA study is to identify a recommended strategy for wastewater servicing for the proposed residential development.

The Process

The study will be undertaken in accordance with the requirements of Schedule 'C' projects, as outlined in the Municipal Class EA Document (2024), which is approved under the Ontario Environmental Assessment Act.

How to Get Involved

A key element of the EA process is gathering comments from the public, stakeholders, Indigenous communities, and agencies. To share project details and progress with the public, two Public Information Centres (PICs) will be held throughout the duration of the study. Upon completion of the study, an Environmental Study Report to document the study process and recommendations will be prepared and made available for a 30-day public review and comment period. Details regarding forthcoming public consultation will be advertised as the study progresses.

To be added to the study mailing list or provide comment, please contact a member of the study team below:
